STUDENT COMPUTER/ INTERNET USER POLICY FORM

Overview

FBCS provides its students access to a computer to enhance and extend the learning experience. This resources provide opportunities to enhance learning and improve communication within our community and with the global community beyond our campus. The advantages of having access to these resources are far greater than any potential downside. However, with the privilege of access is the responsibility of students to exercise appropriate personal responsibility in their use of these resources. This Policy is intended to promote the most effective, safe, productive, and instructionally sound uses of networked information and communication tools. FBCS also makes a good faith effort to protect its students from exposure to internet materials that are harmful or explicit.

Digital Citizen

Student users of the computer, network, and internet resources shall use information and technology in safe, legal, and responsible ways. A responsible digital citizen is one who:

1. **Respects One's Self:** Users will select online names that are appropriate and will consider the information and images that are posted online.
2. **Respects Others:** Users will refrain from using technologies to bully, tease or harass other people.
3. **Protects One's Self and Others:** Users will protect themselves and others by reporting abuse and not forwarding inappropriate materials or communications.
4. **Respects Intellectual Property:** Users will cite any and all use of websites, books, media, etc. when needed.
5. **Protects Intellectual Property:** Users will request to use the software and media others produce.

Expectations

Responsible use of the computers is expected to be ethical, respectful, academically honest, and supportive of the school's mission. Each computer user has the responsibility to respect every other person in our community and on the internet. Students shall receive training regarding appropriate online behavior, including interacting with other individuals on social networking Web sites and in chat rooms and cyberbullying awareness and response. Digital storage and electronic devices used for school purposes will be treated as extensions of the physical school space. Administrators, or their designees, will periodically monitor the online activities of user and computer files to insure that users are using the system in accordance with policy. Users should not expect that electronic communications made or received on networks, internet searches on school computer networks, or files stored on servers or disks will be private. Users also should understand that internet activity is recorded in log files. Users are expected to abide by the generally accepted rules of network etiquette. The following Policy is intended to clarify expectations for conduct, but they should not be construed as all-inclusive.
