

Sam Johnston

I joined FBCS in 2003 and taught First grade, Fourth grade, and 12 years of Middle School Math. I earned a BBA in Accounting from Texas State University, became a CPA in Texas where I worked as an Auditor and Accountant, and am certified to teach through ACSI. God is currently using my accounting background and teaching experience to serve the school as the Office Manager. I have three daughters who graduated 8th grade from FBCS and attend the University of Florida. My husband and I have been married for 23 years and praise God for how He has blessed us.
