

Nicolette Smith

I have an Associate's degree in Special Education and a Bachelor's Degree in Elementary Education. I spent a semester at Lakewood Park Elementary school doing an internship where I taught a kindergarten class of 22 students. I have also student taught at 6 different schools in Port St. Lucie in grades K-3.

I feel that it is very important that every child has the opportunity to be educated in a way that allows them to be successful in their academics. I want to provide my students with an environment that will enrich them in knowledge, creativity, positivity, and Godly character. I want to give my students the tools to help them learn the way that best suits their needs developmentally, academically, and spiritually.
